

Assessment & Curriculum Fidelity Tool

Galileo® Pre-K Online from Assessment Technology Incorporated provides early childhood educators a complete curriculum, fully integrated into an assessment and reporting system that links curriculum, assessment, planning, individualization, and program reporting. Galileo® provides a data-driven, research-based, and standards-aligned approach to providing developmentally appropriate learning opportunities for infants, toddlers, and children ages 3 through 5.

Implementing the Galileo Pre-K Fidelity Tool

Integrated assessment, curriculum, and reporting systems such as Galileo® Pre-K are most effective in promoting children's learning when implementation is consistent, managed and monitored. This is, fidelity of implementation (the use of instructional strategies and delivery of content in the way in which it was designed to be used) matters. To assist programs in evaluating the fidelity of implementation, ATI has created the Galileo® Pre-K Online: *Assessment and Curriculum Fidelity Tool*. Educators can use the Tool to gather data through monitoring and observations focuses on the classroom use of assessment and curriculum. The administrator utilizing the Galileo® Pre-K Online: *Assessment and Curriculum Fidelity Tool* can identify areas where support, feedback, training and professional development can further continuous improvement.

Galileo® Pre-K Online: Assessment and Curriculum Fidelity Tool

Educator: Sarah Bellum

AREA OF FOCUS: MONITORING GALILEO USE

Instructions: This section can be completed when no children are in the classroom. The evaluator reviews and documents the use of Galileo Pre-K Online.

CHILD DATA/DEMOGRAPHICS
(Information can be used for curriculum individualization.)

- Are the child records enrolled in Galileo Pre-K in a timely basis?
- Is accurate data being entered on Child Form Data Information?
- Are the children identified with key demographic information (e.g., special education, English Language Learner)?
- Guiding question:
- Guiding question:

Date	Observation #1	Observation #2	Observation #3
10/14/16	<input checked="" type="checkbox"/> Strongly evident <input type="checkbox"/> Partially evident <input type="checkbox"/> Not evident <input type="checkbox"/> Not applicable	<input type="checkbox"/> Strongly evident <input type="checkbox"/> Partially evident <input type="checkbox"/> Not evident <input type="checkbox"/> Not applicable	<input type="checkbox"/> Strongly evident <input type="checkbox"/> Partially evident <input type="checkbox"/> Not evident <input type="checkbox"/> Not applicable
Specific Examples/Notes	Children are added to Galileo within 2 days of coming to center. School Readiness form completed accurately.	Children are added to Galileo within a day of coming to center. The School Readiness form was not completed for 3 of the

Getting Started

ATI recommends scheduling three opportunities with support staff to explore your program's fidelity of implementation. Guiding questions for both staff and administrator offers ease in implementation practices. Additionally, the *Tool* allows for customization so that a program's unique mission and needs are reflected.

Fidelity Tool Focus Areas

Assessment and Curriculum Fidelity Tool is divided into four focus areas with implementation components. These components offer guiding questions for administrators monitoring implementation. Each implementation component includes a Specific Examples/Notes section for documenting evidence, data sources, and special comments and notes.

Monitoring Galileo Use

- Child Data/ Demographics
- Assessment Data
- Curriculum

Physical Environment

- Signage
- Safety
- Physical Space
- Diversity

Professional Practices

- Professionalism
- Observations/ Assessment
- Curriculum Preparation
- Teacher Engagement
- Family Engagement

Management and Instruction

- Classroom Management, Schedules & Routines
- Learning Environment
- Use of Interest Centers/Activity Centers
- Instructional Time
- Use of Curriculum
- Individualize Curriculum

Four primary areas available in the Assessment and Curriculum Fidelity Tool to monitor with the option of customizing to meet each program's individual mission and needs
