

# Galileo® Pre-K Online

## G3 Assessment Scale

Galileo® Alignment Documentation

Galileo® Pre-K Online is a complete and fully integrated assessment, curriculum, and reporting system linking assessment, planning, individualization, and the documentation of progress in ways that are directly articulated to the *Head Start Early Learning Outcomes Framework* and to available state standards.

### Where can I find my state alignment to Galileo® G3 Assessment Scales?

The federal *Head Start Early Learning Outcomes Framework* alignment and the *Kindergarten Common Core* alignment for math and English language arts can be accessed from either the ATI public website at [ati-online.com](http://ati-online.com) or within the Galileo® Pre-K application from the *Pre-K Help Files*.

State alignment documents provide information on how the Galileo® G3 scales meet the state standards. Links to the state alignment documents are also found on the public website or within Galileo® Pre-K *Help Files*.

#### ATI website

Links to the Galileo® state alignment documents can be accessed from the ATI website, [ati-online.com](http://ati-online.com).

For more information, schedule a Galileo Overview at [ati-online.com](http://ati-online.com) or contact us.

## Galileo® Help Files

Links to the Galileo® state alignment documents accessed from the Galileo® application *Help Files*.

When logged in, click the "Help" link in the upper right of the screen. Click the "Search" icon in the upper left corner of the screen and type in "alignment." Select the desired search result.

The screenshot shows a search interface on the Galileo Pre-K Online website. On the left, a search box contains the word "Alignment", with a red arrow pointing to it. Below the search box are checkboxes for "Show results that include all search words" and "Highlight search results", and a "Search results per page" dropdown set to "10". The search results show "Total Number of Search Results : 2". The first result is titled "State Alignment" and includes a brief description of the Galileo Pre-K Online system. Below this is a "Help and Assistance" link. The second result is a table of state alignment links:

<a href="#">Alabama</a>	<a href="#">Nevada</a>
Arizona <ul style="list-style-type: none"><li><a href="#">AZ Birth-5 Year Olds</a></li><li><a href="#">AZ College and Career Ready Standards for Kindergarten</a></li></ul>	<a href="#">New Jersey</a>
<a href="#">Arkansas</a>	<a href="#">New Mexico</a>
California <ul style="list-style-type: none"><li><a href="#">CA 48 Months</a></li><li><a href="#">CA 60 Months</a></li></ul>	<a href="#">New York</a>

## How does Galileo Pre-K Online support the implementation of the Head Start Early Learning Outcomes Framework?

The *Head Start Early Learning Outcomes Framework* is designed to provide Head Start, and other early childhood programs, with a description of the skills, behaviors, and knowledge that are most important for a child's success. The guidance provided by the *Framework* can inform and facilitate developmentally appropriate practice leading to early learners' success now, and in the future. The *Framework* can be used to guide local decision-making and action leading to positive outcomes for children. They can be included in:

- the selection and use of quality curriculum and assessment tools as part of an overall approach to promoting positive outcomes for children;
- the selection and implementation of developmentally appropriate learning opportunities in a variety of developmental domains;
- the establishment of school readiness goals consistent with state and local expectations;
- the monitoring of children's progress;
- the integration of child assessment data with various aspects of early childhood program planning and design;
- the collection of child assessment data for other early childhood reporting systems; and
- the promotion of child well-being, success, and continuous quality improvement in programs.

Galileo® Pre-K Online is designed to support systemic implementation of the *Framework*. Galileo® Pre-K is a fully integrated, research-based, and standards-aligned curriculum, assessment, and reporting system. Galileo® Pre-K includes a comprehensive curriculum with an empirically-based scope and sequence, as well as tools supporting planning, individualization, assessment, and the documentation of progress. Galileo® Pre-K is currently used in early childhood programs to support a collaborative, data-driven, and goal-directed approach to promoting positive outcomes.
